

Roads in your district are bad today.

**Without an increase in funding,
they will be worse tomorrow!**

What kind of future do you want for your district?

**Your actions in Lansing are the only thing that will make a difference
Fix MI Roads NOW!**

The Michigan Transportation Asset Management Council (TAMC) collects data on pavement conditions from all road agencies. A uniform rating scale (PASER) is used to determine the condition of roads. Data collected over the past six years has led TAMC to the conclusion that at current funding levels, **“Michigan roads are deteriorating faster than they can be repaired or replaced.”** *Source: TAMC 2009 Annual Report*
